Subject: Review of Full Bond Release and File Closure, Hadco Construction, Camp Williams, S/035/0037, Salt Lake County, Utah

Dear Mr. Roberts:

On June 14, 2010, we received your request for a full release of the reclamation surety and file closure for the Camp Williams Mine. Before the Division can process this request, you need to do the following:

1. Remove the asphalt piles adjacent to the fence (required for grading release)
2. Remove the 2 old tires (required for grading release)
3. Reseed the area (required for revegetation release)

Please resubmit MR-Site/Bond Release form when the above listed tasks have been completed. The form can be found on the Division's Web site at www.ogm.utah.gov/minerals.

Once the Division receives this information, we will proceed with processing your request. Please note, an inspection of the reclamation work may be required before we approve the release of any surety. If you have any questions or concerns regarding this letter, please contact me at 801-538-5261 or Leslie Heppler at 801-538-5257. In response, Please reference our file number S/035/0037 regarding this project.

Sincerely,

Paul B. Baker
Minerals Program Manager
